

What do you think of today's session?

Bad things

WE NEED A BIGGER JAMBOARD!

I miss the nice food at real meetings

Voting system is complicated. Use different software?

Good to have links with Europe, but be aware of how much we can learn from European Countries. UK is behind on implementation of retrofited building and local energy. We have a lot to learn from Germany and others countries.

no pub

Chance for other member input?

Room for another info session?

Having not been at the last meeting wasn't sure if I should vote to approve or abstain - some guidance would be good

Recommendations

Get people to sign up for things at the meeting. Give the links so we can do that

clear and comprehensive information

Would like to understand more the relationship between Carbon Coop and initiatives like PAS2035/30 in terms of capacity building

much easier to attend than a face to face

excellent - good use of time

Fantastic AGM ... really looking forward to another year and my retrofit / learning etc.

Useful explanation of acronyms

Activity Reports were great

Loved the review of broad range of projects

The review of activities was good

Running polls through Zoom is really simple and easy. Much easier than last year's complicated separate voting system.

Good to get everyone together

voting system was easy to use

Review of activities

Rob's chairing

Informative and good efficient

great review of all that's going on

Online actually felt OK for this type of meeting though may have reduced questions

Really impressed with the variety of projects that CC are involved with.

nice to see some familiar faces!

Good things

voting was simple mechanism

Well organised and good time-keeping. Informative for someone who is a relatively new member (= me)

Overview of the projects - both current and planned

Voting worked well

I think having the AGM separate from Key note seemed to work well

Well run efficient meeting

Voting so much easier this year

good presentations from everyone - learnt a lot

Timing! Very efficient.

everything focused and direct

presentations well prepared & concise

Use the H-Form to share your views about today's event.

1. Score today's session between 1-10 using the horizontal line of the 'H.' 1 is rubbish 10 is brilliant.

2. Use the left hand side of the 'H' to note everything good about today's session using yellow sticky notes.

3. Use the right hand side to note down anything negative about today's session using green sticky notes.

4. Use the bottom of the 'H' to note down any recommendations or ideas you have for future sessions using blue sticky notes.
